About TED and TEDx:

TED is a non-profit organization devoted to spreading ideas, usually in the form of short, powerful talks (18 minutes or less) which covers almost all topics — from science to business to global issues — in more than 100 languages.

A TEDx (x=independently organized TED event) is a local gathering where live TED-like talks and performances are shared with the community. TEDx events are fully planned and coordinated independently, on a community-by-community basis. The content and design of each TEDx event is unique and developed independently, but all of them have features in common.

TEDxVIIT 2019 was organized on 25 th March and the venue was the beautiful open-air Liberty Square, Phoenix Market City. The event was by graced by many eminent personalities:-
